ACTIVITAT DIXIT CENTRE DE DOCUMENTACIÓ DE SERVEIS SOCIALS / FEPTS

“Cicle de Lletres Socials”

On Thursday, October 24, the round table-debate “Dialogue on Moriu-vos, by Anna Maria Ricart Codina” took place in the Sala de Juntes of the FEPTS within the Cycle of Social Letters (DIXIT Lleida, Center for Documentation of Social Services) with the participation of the professors of the Faculty Anna Soldevila, Ramona Ribes, Núria Casado and Fidel Molina-Luque Social Work, and the students of Social Services.

Moriuvos gives theatrical form to unwanted loneliness among the elderly, the disappearance of ties, the abandonment by children, physical deterioration and degrading conditions that can be experienced in some nursing homes.

In the Dialogue, the impressions about Moriu-vos were shared, as if it were a reading group, in an interdisciplinary way: literature, sociology and socio-educational action.
